2024-25 Enrollment

Dear Parents,

Thank you, for your interest in the Northside Learning Center Preschool. Please, complete the information on the attached form, sign it and mail it to the **address given below**. You can also drop it by the preschool between 9:00am and Noon, Mon. through Fri. before May 24th. We cannot register on line, and do not take debit or credit cards. When we receive your registration form and \$100.00 registration fee (non-refundable), your child is enrolled and his/her place is reserved for fall. If classes are filled we will call you immediately to advise you. You may call or email us to inquire about availability. Sorry, we will not hold a place without the registration form and the \$100.00 registration fee.

Your child's immunization record must be on file when school starts in September, but, it is not necessary for registering your child. If you do not have the immunization information when you send the registration form, please, forward it before our first day of school. Your child cannot be in attendance without the form on file. We do not have a fax line.

If you have a special request for placement, we will do our best; however, the children are divided by their abilities, both academically and socially, and by age. The emotional development and social skills of a very young four year old differs greatly from those of a four and a half to five year old. Combining those ages together can make the preschool class very difficult for the teacher and for some children. Also, please understand that we cannot guarantee that a specific teacher will be teaching a specific age; OR that she will even be returning in the fall!

Our Mailing Address is:

Northside Learning Center Preschool

Licensed Health Care Provider Signature Date

▶ _____

Printed Name

I certify that the information provided on this form is correct and verifiable.

Health Care Provider or School Official Name: _____ Signature: _____ Date: _____
 If verified by school or child care staff the medical immunization records must be attached to this document.

Instructions for completing the Certificate of Immunization Status (CIS): Print the from the Immunization Information System (IIS) or fill it in by hand.

To print with the immunization information filled in:

Ask if your health care provider's office enters immunizations into the WA Immunization Information System (Washington's statewide registry). If they do, ask them to print the CIS from the IIS and your child's immunization information will fill in automatically. You can also print a CIS at home by signing up and logging into MyIR at <https://wa.myir.net>. If your provider doesn't use the IIS, email or call the Department of Health to get a copy of your child's CIS: waisrecords@doh.wa.gov or 1-866-397-0337.

To fill out the form by hand:

1. Print your child's name and birthdate, and sign your name where indicated on page one.
2. Write the date of each vaccine dose received in the date columns (as MM/DD/YY). If your child receives a combination vaccine (one shot that protects against several diseases), use the Reference Guides below to record each vaccine correctly. For example, record Pediatix under Diphtheria, Tetanus, Pertussis as DTaP, Hepatitis B as Hep B, and Polio as IPV.
3. If your child had chickenpox (varicella) disease and not the vaccine, a health care provider must verify chickenpox disease to meet school requirements.
 - If your health care provider can verify that your child had chickenpox, ask your provider to check the box in the Documentation of Disease Immunity section and sign the form.
 - If school staff access the IIS and see verification that your child had chickenpox, they will check the box under Varicella in the vaccines section.
4. If your child can show positive immunity by blood test (titer), have your health care provider check the boxes for the appropriate disease in the Documentation of Disease Immunity section, and sign and date the form. You must provide lab reports with this CIS.
5. Provide proof of medically verified records, following the guidelines below.

Acceptable Medical Records

All vaccination records must be medically verified. Examples include:

- A Certificate of Immunization Status (CIS) form printed with the vaccination dates from the Washington State Immunization Information System (IIS), MyIR, or another state's IIS.
- A completed hardcopy CIS with a health care provider validation signature.
- A completed hardcopy CIS with attached vaccination records printed from a health care provider's electronic health record with a health care provider signature or stamp. The school administrator, nurse, or designee must verify the dates on the CIS have been accurately transcribed and provide a signature on the form.

Conditional Status

Children can enter and stay in school or child care in conditional status if they are catching up on required vaccines for school or child care entry. (Vaccine series doses are spread out among minimum intervals, so some children may have to wait a period of time before finishing their vaccinations. This means they may enter school while waiting for their next required vaccine dose). To enter school or child care in conditional status, a child must have all the vaccine doses they are eligible to receive before starting school or child care.

Students in conditional status may remain in school while waiting for the minimum valid date of the next vaccine dose plus another 30 days time to turn in documentation of vaccination. If a student is catching up on multiple vaccines, conditional status continues in a similar manner until all of the required vaccines are complete.

If the 30-day conditional period expires and documentation has not been given to the school or child care, then the student must be excluded from further attendance, per RCW 28A.210.120. Valid documentation includes evidence of immunity to the disease in question, medical records showing vaccination, or a completed certificate of exemption (COE) form.
