2025-2026 Enrollment

Dear Parents,

Thank you, for your interest in the Northside Learning Center Preschool. Please, complete the information on the attached form, sign it and mail it to our mailing address found in our information

Early Childhood Development & Education

6721 N Monroe St, Spokane WA 99208 509-328-2002 | www.NLCpreschool.com

packet, (not our physical address). You can also drop it by the preschool between 9:00am and Noon, Mon. through Fri. before May 23th. We cannot register on line, and do not take debit or credit cards. When we receive your registration form and \$100.00 registration fee (non-refundable), your child is enrolled and his/her place is reserved for fall. You may call or email us to inquire about availability. Sorry, we will not hold a place without the registration form <u>and</u> the \$100.00 registration fee. Your child's immunization record must be on file when **school starts** in September; however, it is not necessary for registration form, please, forward it before our first day of school. Your child cannot be in attendance without the form on file. We <u>do not</u> have a fax line.

If you have a special request for placement, we will do our best; however, <u>the children</u> <u>are divided by their abilities</u>, <u>both academically and socially, not just by age</u>. The emotional development and social skills of a very young four year old differs greatly from those of a four and a half to five year old. Combining those ages together can make the preschool class very difficult for the teacher <u>and</u> for the children. **Also**, please understand that we cannot guarantee a specific teacher will be teaching a specific age; OR that she will even be returning in the fall!

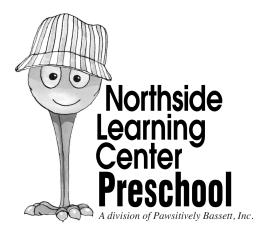

New incentive policy!! If you recommend us to a friend, and they also register their child, we will give you <u>25% off your registration fee!!</u> You can pick up an extra information packet and registration form from your child's teacher or Mrs. Briggs.

****TUITION FEES FOR 2025-26 SCHOOL YEAR:**

| 2-days Tuesday and Thursday | \$180.00 per month |
|-------------------------------------|--------------------|
| 3-days – Monday, Wednesday & Friday | \$270.00 per month |
| 5-days – Monday through Friday | \$450.00 per month |

* Please note: The registration fee is a <u>family fee</u>. Also, there is a 10% tuition discount given for the additional child(ren), when siblings are attending our school.

Thank you! Mrs. Briggs and the preschool staff

Early Childhood Development & Education

6721 N Monroe St, Spokane WA 99208 509-328-2002 | www.NLCpreschool.com

Enrollment Information 2025 - 2026

PLEASE KEEP THIS PACKET FOR FUTURE REFERENCE

ENROLLMENT POLICY: To be eligible for enrollment, your child should be at least three years old as of September 30th and <u>must</u> be able to use the bathroom independently.

REGISTRATION FEE: A registration fee of \$100.00 is required at the time you enroll your child(ren) in the school. This fee covers enrollment fees, insurance and worksheet costs and is **non-refundable**. This is a perfamily fee.

MONTHLY TUITION FEES: FEES ARE DUE ON THE FIRST SCHOOL DAY OF EACH MONTH. The tuition fees have been divided into nine equal payments and are computed on the basis of the total number of school days for the year, rather than on the number of school days in a particular month. You may enroll your child in a two, three or five-day a week session. The following are the monthly fees charged:

> Monday-Wednesday-Friday \$270.00 Tuesday-Thursday \$180.00 Monday through Friday \$450.00

THERE ARE NO REFUNDS OF REGISTRATION FEES OR TUITION FEES. If fees are not paid by the due date you will receive a *friendly reminder slip*. There is a <u>\$30.00</u> <u>late fee</u> for payments made <u>after the 10th</u> of each month and if payments are not made by the 15th of the month, your child will not be able to attend school until payment in full, including the late fee, is received. Please, see the director if special arrangements need to be made. Please send monthly fees in an envelope with your child's name, **or** write your child's name somewhere on the check, and give it to any teacher/director. You can also place checks in the "tuition can" on the director's table. We request that cash payments be given to a teacher or director and <u>not</u> placed in the tuition can, so we may provide you a receipt.

ILLNESS - VACATION - WITHDRAWAL: If your child is

ill please, call the school. If it becomes necessary to withdraw your child for any reason, you must notify the preschool in advance, so your child can be withdrawn and no monthly fee will be charged. Should you desire to reenroll your child, you must call again to be sure there is a place available. No places are held without payment of the monthly fee. If your child will be gone for an extended period (i.e. vacation) please notify their teacher and we will save any work that is possible to save.

NO MAKE UP CLASSES ARE GIVEN FOR ABSENCES, NOR ARE ANY PARTIAL REFUNDS OF FEES MADE FOR ABSENCES DUE TO ILLNESS OR VACATIONS.

SCHOOL SESSIONS AND HOLIDAYS: Our session begins at 8:55 am and ends at 12:15 pm. Parents should bring children to class each morning <u>no earlier</u> than 8:45 am. Teachers will bring their classes to dismissal doors at 12:15. Parents should wait outside these area doors for their child. <u>Please do not</u> come into the building to pick up your child. For the safety of each child we ask that you do not engage the teacher in lengthy conversation until she has finished dismissing her class and each child has gone. Her first responsibility is to see that each child is safely picked up by the proper person. You are welcome to make an appointment after 12:15, if needed.

The classes are in session September through May. The Northside Learning Center's holiday schedule is provided on our web site and sent with our fall start-up letters. We <u>do not</u> observe the public schools' Parent Conference and Curriculum Days. In the event of possible school closures for weather, you will receive a call from your child's teacher if we are closing.

SNACK TIME: Snack time starts at 10:25 each day. The children will need a snack in a lunch container (lunch pail, paper bag, etc.) and a bottle of water daily. Please write your child's <u>First</u> and <u>Last</u> name on the snack container <u>and</u> water bottle. Snacks should be simple and nutritious. DO NOT send any snack which includes any type of nut or peanut products. This includes ingredients like peanut flour or almond oil. PLEASE check ingredients labels carefully. Also no gum is allowed in the school.

BIRTHDAY SNACKS: Must be store bought and still sealed when brought to school. Please arrange with your child's teacher before bringing treats to school. Many times we have several children in the same class with birthdays close together or the same day.

SHOW AND TELL TIME: Children are given time for Show and Tell on the *first school week of each month* <u>only</u>. We prefer this not be a toy, but some other object of interest, such as a shell, a bird nest, a letter, pictures, etc; however, toys are acceptable, especially after Christmas or a birthday. <u>No toy weapons are allowed in school, ever</u>. Send items in a bag labeled with your child's full name.

SCHOOL CLOTHING: Dress your child for COMFORT PLAY and the WEATHER. Children must wear sturdy shoes for play. *No opened-toed sandals, jellies or snow or rain boots, please.* Boots may be worn to and from school, but must be changed to shoes once in the building. Art activities can be messy and although paint smocks are used, stains may happen. Please label your child's coat, sweater, boots, cap, and mittens with his or her FULL name. Each teacher has a specific coat rack for her class, please make sure your child's things are hung in the proper place.

SCHOOL DISCIPLINE: <u>No</u> corporal punishment of any type is <u>ever</u> used by any member of the staff. No child is ever isolated from a class or teacher. Control and discipline is maintained in school by using sound classroom management techniques, breaks and time-outs (within the classroom). Your child will be treated with respect, consideration, and understanding.

ABOUT THE SCHOOL

The preschool is located in the Northwood Presbyterian Church, but is <u>not</u> church affiliated. The school uses five large classrooms. All the rooms are located on the main floor and have large windows, creating an airy, light environment which allows the children the pleasure of seeing the seasonal changes throughout the year. The large size classrooms, which are clean, pleasant, well-equipped and well organized allow the children important space for movement and play.

Unlike many preschools that deal with only language or social development, the Northside Learning Center Preschool effectively covers all developmental areas. Each of the classrooms is set up and equipped as one activity center. The centers are:

- 1. Arts and Crafts Center
- 2. Music and Language Development
- 3. Learning and Manipulative Center
- 4. Free Play and Social Development

Your child will rotate with his/her teacher and classmates to the four different centers during the morning. Each of our teachers has a schedule she follows. Approximately 40 minutes are scheduled for each of the centers. The children enjoy rotating to the different centers and having a complete change of activities and materials to explore. This keeps the children interested throughout their 3-hour day, which is not always the case when they are confined to one room for the entirety of their morning.

Qualified teachers, with experience are on staff each session. Children are divided into classes based on their age and the teacher is assigned to a class for the entire school year. Usually children in each class are within 6 months in age and remain together during the year.

Our teaching approach is to make examples of stimulating, visual and concrete concepts for the preschoolers. By doing so, your child, as well as the teacher, experiences success and confidence in daily activities. Children develope the sense that "I can do it".

Social development, art and creative drama receive the same priority as math, reading readiness and language.

<u>A high degree of consistency, quality, and professionalism</u> is provided by the staff at all times. The staff receives high praises each year from parents.

Remember, your child will be introduced to materials and will work only in those areas that are appropriate for his or her age and level of ability.

INVOLVING PARENTS

Parents receive an informative "Parent Letter" each month which will inform you of the current "theme" or "unit" being introduced and the books or videos for that unit. The letter will also list any special events for the month, such as a program or party for the children. Parents can reinforce and extend the "theme" for the month at home with their child or children.

Children love to perform songs, poems and dances for parents, therefore, several "mini-programs" are presented during the year to which you are invited. These programs allow parents and teachers to observe the progress and improvement a child is making in group activities, confidence, memory skills, language and gross/fine motor skills. More importantly, though, is the pleasure you will derive from just seeing your child "perform", or in some cases, "not perform"!

Parents are welcome to visit the classes at any time except during the month of September when the children are adjusting to the new environment. We ask that the visit be limited to one hour. Parents need not notify us in advance.

OUR CURRICULUM

The teachers approach our many activities and the general curriculum as if they were unlocking a treasure chest filled with delightful surprises for helping your child discover something new and exciting each day. The following questions and answers about the curriculum will provide you with more complete information and details about the programs.

What is the teaching program?

It is a program of excellent children's literature, designed to awaken interest and open doors to thinking and learning. The program introduces readiness skills in language arts, sciences, mathematics and social studies with creative activities in music and rhythms, arts and crafts, dramatics, games and free-play experiences. By providing a solid foundation for learning, we can broaden children's awareness and understanding of themselves and others, and of the world around them.

How is the teaching program organized?

The program is organized into units designed to cover a full school year. The units presented provide the foundations for sequential development of basic skills and concepts. Since the attention span of a young child is limited, meaningful listening and speaking experiences are balanced with physical activities. Each lesson in this program has been designed to provide for a variety of pace, coverage and flexible use. Because the program interrelates all major subject areas with creative activities, it is used in a supplementary way to enrich and reinforce our other curriculum.

How do we select our literature and how is it used in our program?

The books are selected for various reasons. They are established favorites with children preschool and kindergarten age. The text and illustrations of each book are used to develop language skills and concepts, as well as to provide insights into other areas. Our entire library provides a balanced selection of outstanding literature and poetry. New literature is being added regularly to our program. Learning to love good stories is a big step in motivating a student to read. If a young child enjoys the stories and poems that are read to them, they will transfer this pleasure to their approach to books in general, and will look forward to the time when they will be able to read books for themselves. In addition, with exposure to carefully selected literature, your child learns to focus their attention on language, as well as on story theme and illustrations. The teaching program provides for the child's direct involvement with the language of good books. Listening, day by day, to the language of gifted and major writers, children grow in their ability to listen, to understand, and to communicate.

What subjects are taught and how are they developed?

The four major subject areas are language arts, science, mathematics and social studies.

1. Language Arts: Provision has been made, throughout the program, for balanced development of both listening and speaking skills. The language activities in the program have been directed toward developing children's awareness of themselves and their surroundings. Through participation in learning situations such as the following, children are encouraged to think and to express themselves more easily:

- Describing shapes and colors, textures, tastes, odors and sounds
- Describing personal reactions to situations
- Describing words having the same or opposite meanings
- Recognizing words with similar sounds
- Interpreting language in stories, poems and riddles
- Discussing story and picture sequences
- Drawing conclusions to supply endings for stories
- Participating in discussions, word games and dramatizations

For the younger children we use several prewriting activities, as well as the beginning letters of their names. Establishing proper pencil position helps in fine motor skill development and to build confidence.

The older children are taught handwriting skills beginning with the letters of the alphabet and eventually writing their name with upper and lower case letters as their fine motor skills develop. Proper pencil position is emphasized and there is respect for individuality with every child's handwriting.

Reading requires children to know how to employ decoding and comprehension skills, when and how to apply them, and how to do so independently. Phonics and other decoding skills are the most useful and give children independence as early as possible. Common initial consonants and long vowel sounds are taught explicitly in the pre-reading program.

2. Science: The major areas of emphasis in science are: the four seasons, the growth of plants, animals and people, weather, and the universe. Healthy concepts (handwashing, etc) are discussed in many contexts throughout the units, and the children's awareness of the five senses is developed in a variety of activities. The children are given a variety of opportunities to learn about different animals, flowers and trees. Geography is also included in several units to help prepare children to better understand their relationship to their surroundings.

3. Mathematics: Mathematical concepts, including counting and familiarity with ordinal as well as cardinal numbers are developed throughout the units. All numbers are presented in connection with stories or verses and pictures in a pattern that first establishes visual and/or tactile references. Before new numbers are introduced, those already learned are reviewed. The curriculum provides a link between the child's world and the adult's world of mathematical symbols and abstractions. This program forms a bridge that begins at a child's concrete, material level and leads the children to the world of abstractions.

Some of the specific pre-math concepts and skills that we work with, and attempt to develop in children are the following:

Patterns/shapes Graphing Problem solving Measuring Sorting/Comparing Counting classifications One to one correspondence Numeral recognition/form

4. Social Studies: A child's understanding of themself, their family and friends, the people in their community, and their relationship to one another is of the utmost importance to a child's adjustment to school and the other phases of their life as well. Therefore, this program devotes much effort to providing opportunities for awareness in these areas. Emphasis is given to discussions of family relationships, sharing and taking turns with companions, accepting and appreciating individual differences, and solving problems arising from bullying and arguments. In addition, health and safety concepts are emphasized.

Will children be given a Progress or Kindergarten Readiness Evaluation?

All older children in the school are given a school readiness evaluation in May before school ends. Younger children are given a progress evaluation.

Can I find a less expensive preschool?

Maybe - and Montessori, for example, is usually more expensive. But, you will not find a more professional, quality program in Spokane. Also, remember the Northside Learning Center is <u>not</u> a day care center...we are <u>exclusively a preschool</u>. We're committed to presenting an early childhood education to children as it should be taught. Parents should make a decision on which preschool to send their child to by visiting the schools, meeting the staff, asking questions concerning their qualifications, class size and specific questions about the content of the program.

"But I Don't Want To Go To School!"

If your child at first seems reluctant to attend preschool, please understand that it sometimes takes three or four weeks for young children to accept a new routine and environment. If your child does not share your excitement, don't be disappointed. With patience and understanding nearly all children soon come to enjoy having new activities and new playmates. We are happy to help with special problems...we have years of experience and no problem is too large or too small.

Thank you for your interest in the Northside Learning Center Preschool.

Sincerely,

Amanda Briggs, Director/Owner and The Staff at the Northside Learning Center

Health Care Provider or School Official Name: Signature: on this form is correct and verifiable. If verified by school or child care staff the medical immunization records must be attached to this document.

Instructions for completing the Certificate of Immunization Status (CIS): Print the from the Immunization Information System (IIS) or fill it in by hand.

To print with the immunization information filled in:

Ask if your health care provider's office enters immunizations into the WA Immunization Information System (Washington's statewide registry). If they do, ask them to print the CIS from the IIS and your child's immunization information will fill in automatically. You can also print a CIS at home by signing up and logging into MyIR at https://wa.myir.net. If your provider doesn't use the IIS, email or call the Department of Health to get a copy of your child's CIS: waiisrecords@doh.wa.gov or 1-866-397-0337.

To fill out the form by hand:

1. Print your child's name and birthdate, and sign your name where indicated on page one.

2. Write the date of each vaccine dose received in the date columns (as MM/DD/YY). If your child receives a combination vaccine (one shot that protects against several diseases), use the Reference Guides below to record each vaccine correctly. For example, record Pediatix under Diphtheria, Tetanus, Pertussis as DTaP, Hepatitis B as Hep B, and Polio as IPV.

3. If your child had chickenpox (varicella) disease and not the vaccine, a health care provider must verify chickenpox disease to meet school requirements.

- If your health care provider can verify that your child had chickenpox, ask your provider to check the box in the Documentation of Disease Immunity section and sign the form.
- If school staff access the IIS and see verification that your child had chickenpox, they will check the box under Varicella in the vaccines section.

4. If your child can show positive immunity by blood test (titer), have your health care provider check the boxes for the appropriate disease in the Documentation of Disease Immunity section, and sign and date the form. You must provide lab reports with this CIS.

5. Provide proof of medically verified records, following the guidelines below.

Acceptable Medical Records

All vaccination records must be medically verified. Examples include:

- A Certificate of Immunization Status (CIS) form printed with the vaccination dates from the Washington State Immunization Information System (IIS), MyIR, or another state's IIS.
- A completed hardcopy CIS with a health care provider validation signature.
- A completed hardcopy CIS with attached vaccination records printed from a health care provider's electronic health record with a health care provider signature or stamp. The school administrator, nurse, or designee must verify the dates on the CIS have been accurately transcribed and provide a signature on the form.

Conditional Status

Children can enter and stay in school or child care in conditional status if they are catching up on required vaccines for school or child care entry. (Vaccine series doses are spread out among minimum intervals, so some children may have to wait a period of time before finishing their vaccinations. This means they may enter school while waiting for their next required vaccine dose). To enter school or child care in conditional status, a child must have all the vaccine doses they are eligible to receive before starting school or child care.

Students in conditional status may remain in school while waiting for the minimum valid date of the next vaccine dose plus another 30 days time to turn in documentation of vaccination. If a student is catching up on multiple vaccines, conditional status continues in a similar manner until all of the required vaccines are complete.

If the 30-day conditional period expires and documentation has not been given to the school or child care, then the student must be excluded from further attendance, per RCW 28A.210.120. Valid documentation includes evidence of immunity to the disease in question, medical records showing vaccination, or a completed certificate of exemption (COE) form.
